SUMMARY

Frontend Developer with 4+ years of experience, specializing in React, Next.js, and TypeScript. Delivered measurable performance improvements, including a 40% reduction in page load time for a SaaS platform serving 30,000+ users. Experienced in product development from scratch, frontend architecture decisions, testing, and AI-assisted development workflows. Also brings mentoring experience in frontend fundamentals and responsive design.

WORK EXPERIENCE

Frontend Developer

Jun 2025 – Present

Dobare | Tehran, Iran

- Built multiple products from scratch including a dashboard serving ~5,000 DAU, using **Next.js**, **React**, **TypeScript**, **MUI**, and **Tailwind CSS**.
- Developed and maintained a merchant customer club panel with 15+ **configurable modules**, translating business requirements into scalable frontend features.
- Designed and implemented end-to-end **authentication flows** and complex, **reusable UI components** adopted across multiple product modules.
- Contributed to **Module Federation microfrontend architecture**, enabling **independent team deployments** and reducing cross-team dependencies.
- Built a shared utilities library for formatting, validation, and API helpers, **standardizing development patterns** across the frontend codebase.
- Leveraged **AI-assisted development tools** (code generation, automated refactoring, test scaffolding) to **accelerate delivery**, contributing to a ~20% improvement in sprint velocity.
- Implemented **unit and integration testing** with **Jest** and **React Testing Library**, achieving 80%+ coverage on critical user flows.

Frontend Developer

May 2024 – Jun 2025

Vitrin | Tehran, Iran

- Led frontend development for a SaaS website builder built on **microservices architecture**, serving 30,000+ active users across web and Electron platforms.
- Built **complex features** including booking systems, calendar management, payment flows, map integrations, and merchant customization tools, improving product flexibility and **SEO** performance.
- Managed complex state coordination** between the merchant admin panel and end-user websites, ensuring **real-time data consistency** across both interfaces.
- Reduced page load time by 40%** through code splitting, lazy loading, SSR optimization, and bundle analysis using Lighthouse and Web Vitals.
- Integrated **Sentry** error tracking and performance monitoring, reducing mean time to detect frontend issues, ensuring **website uptime** and **crawlability** for search engines.
- Led **UI redesign** of core product pages, improving visual consistency and user engagement across the platform.
- Built and maintained **payment gateway integrations** and **third-party service connections**, handling **authentication**, **webhooks**, and error recovery flows, ensuring secure and **reliable transactions** that build user trust, a positive SEO signal.

Frontend Education Mentor

Jun 2024 – Apr 2025

Kaaryar College | Tehran, Iran

- **Mentored students** in HTML, CSS, responsive design, and frontend fundamentals through hands-on projects, assignment reviews, and practical guidance.
- Explained core concepts (box model, flexbox, transitions, accessibility) to help students build **practical, job-ready skills**.

Frontend Developer

Sep 2023 – Feb 2024

Kaaryar College | Tehran, Iran

- Contributed to the development of a fully responsive Dynamic Presentation Generator for **Digikala** using **React**, including management, display, and admin panels.
- Designed and **implemented reusable, scalable React components** while integrating essential frontend libraries for performance and maintainability.
- **Collaborated** with a 12-member **remote team** across multiple cities, contributing to planning, **code reviews**, and coordinated feature delivery.
- Created clear **technical documentation** and contributed to a solution that was selected as the **top project** among three competing teams.

Freelance Frontend Developer

Mar 2022 – Sep 2023

Self-Employed

- **Architected and deployed** high-performance landing pages and web applications for a diverse client base, ensuring 100% cross-browser compatibility and mobile responsiveness.
- **Engineered pixel-perfect interfaces** from Figma and Adobe XD designs using **React** and modern **JavaScript (ES6+)**, maintaining high fidelity to original design specifications.
- **Optimized Core Web Vitals** and SEO foundations, resulting in improved search rankings and faster page load speeds for client businesses.
- **Owned the end-to-end project lifecycle**, from initial requirement gathering and technical scoping to final delivery and post-launch maintenance.

TECHNICAL SKILLS

Languages & Frameworks: React / Next.js, TypeScript, JavaScript (ES6+), HTML5 / CSS3, React Native

UI & Styling: Tailwind CSS, MUI, Styled Components, Storybook, Responsive / RTL Design

State & Data: Redux / Zustand, TanStack Query, REST APIs, Module Federation

Testing & Tooling: Jest, React Testing Library, Cypress, Sentry / Web Vitals, Git, CI/CD, Vite / Webpack, Docker

EDUCATION

Bachelor of Engineering – Computer Software Engineering

2015 – 2017

Azad University (IAU), Saravan Branch

Associate Degree – Computer Software Engineering

2013 – 2015

Hatef Institute of Higher Education

LANGUAGES

Persian: Native **English:** Working Proficiency **German:** Elementary
